Suggest a podcast guest

General Information · https://the-haven.co/docs/suggest-a-guest/

Do you know someone who would be a good guest for the Gentle Rebel podcast? I would love to hear.

Please note, I don’t accept unsolicited requests to be on the Gentle Rebel Podcast, especially from PR firms sending AI-generated emails claiming to have listened to the podcast. I ignore those. However, if you believe that you or someone you know would be a good fit for a rich conversation, I am open to the idea!

If we haven’t met before, I like to follow your social media or listen to other shows you’ve appeared on so I can get a sense of whether it feels right. If you’re trying to fit an appearance into a promotional window, I am unlikely to agree. Past experience shows that discussions about a product or service launch aren’t particularly engaging for me or my listeners (I don’t want to have the same conversation you’ve had on many other podcasts).
