The Call

Pick The Lock conversations are 60 minutes long.

Sometimes conversations naturally run a little longer or shorter, so I give a fifteen minute buffer in case we need it.

Choose Your Own Price

You will also receive an automated email after our session with a PayPal.me link

If you are in a position to do so, you can donate money for the session. There is no pressure or expectation.

Follow Up

During the days after our call, I send follow up questions you are welcome to use for further processing and reflection.
